

# IMPACT JOURNAL, Community Project

## Submission Template

---

*The community project database is designed to celebrate interdisciplinary healthcare initiatives and provide students, new graduates and young professionals with innovative new project ideas and the materials to implement them.*

*Your submission will be used to help build out global project database and will be available to people around the world. With the help of the template you provide, students and professionals will be able to recreate your project and adapt it to their community!*

### **\*Project Title:**
